

Executive Advisory Services

Investing in individual growth and development is a force multiplier for executives

What do you want your *leadership impact* to be?

Executive Advisory Services focus on senior level leaders and Board members to help accelerate the most important and impactful areas of the business. Are you a C-Suite or Executive Team member who is looking to have more of an impact through your leadership? Are you or your organization in a time of transition?

Leaders have an outsized impact on organizational behaviors. The way you show up creates the basis for how your team members show up collectively. We will pair you with one of our Executive Advisors, who bring a combination of business acumen, consulting, and advising skills to help you think through business and people challenges. Through this process, you will discover new ways of both thinking and doing as a powerful leader in your organization.

Key conversations:

Together, you and your Executive Advisor will explore:

- > What it means to *start with self* to have quality conversations.
- > How to hold the line on what people have agreed to do and what they are actually doing.
- > Tools and techniques for building energy and having productive conversations during meetings.
- > Curating stories to reinforce the behaviors you want from your team and your organization.

“My experience with my Executive Advisor provides opportunities to be encouraged, supported and challenged all at once...the work is real, comes from a place of solid credentials, and will reap some great benefits for me personally and, in turn, professionally.”
